- **Responsive Web Design Certification – FreeCodeCamp:** July 2024

Work Experience

June 2024

IEUK Technology Intern at Bright Network - Remote

Participated in an immersive internship program focused on various aspects of technology and software development.

Key responsibilities

- Attended a keynote on technology trends and career paths by representatives from PwC, BT Group, and MI5.
- They outlined strategies for introducing oneself to technology and navigating diverse career trajectories within the field.
- Submit a work sample focused on project management within the context of increasing revenues. This involved proposing various strategies to enhance revenue generation and suggesting modifications for the mobile app 'Runrizz'. The objective was to showcase expertise in strategic planning, revenue optimization, and the practical application of project management principles within a tech-focused context, detailing all responsibilities and highlighting a comprehensive range of skills and knowledge.

November 2022– March 2024

Financial Costumer Service - Remote

- Assessing the financial risk associated with customers and making recommendations based on their financial situations, while maintaining 80% satisfactory rate of succession.

- Assisting customers with the application process, explaining terms and conditions, and ensuring all required documentation is submitted.
- Recommend and explain various financial products and services, such as savings accounts, investment options, loans, and credit cards, based on the customer's needs.
- Helped customers manage their accounts, including addressing inquiries, explaining statements, and providing information on account-related services.
- Provide financial education to clients, helping them understand basic financial concepts, provide information on fraudsters and how to make informed decisions

Key skills

- | | | |
|------------------------------------|-----------------------|---------------------|
| • Communication | • HTML, CSS | • Adaptability |
| • Python, JavaScript (entry level) | • Confident PC skills | • SQL (entry level) |
| | • Resilience | |

Additional Information/Hobbies

- **Languages:** English (Native), Spanish (Native)
- **Interest:** Hiking, Volunteering, Travelling, Web development, Football, Reading romance/self-development book
- **Recent:** Consistently raising money for charity through variety of means, spend my free time volunteering with individuals who are neurodiverse

Education

- **Psychology & Criminology, 2:1, City, University of London, 2023**
- **Forensic Science, D*D*D* (A*A*A*), City & Islington College, 2020**
